## the Smart Oven™ Air Fryer

### Product Description:

10 cooking functions in one appliance including healthy air fry technology. The Smart Oven Air Fry powered by our Element iQ® system delivers maximum performance and versatility. Smart algorithms replicate the ideal cooking environment for each function, while higher temperatures and super convection speeds up cooking times for the perfect crispness.

#### **DEDICATED AIR FRY SETTING**

Why buy a stand alone air fryer when the Smart Oven Air Fry can turn out guilt-free chips, chicken wings, family favourites and so much more. Higher temperatures combined with superconvection (maximized air flow) deliver delicious, crispy golden air fried foods with little or no oil.

#### **ELEMENT iQ® SYSTEM**

Smart algorithms steers power to where and when it's needed to create the ideal cooking environment, for a range of different cooking techniques. With sensing and digital PID temperature control it eliminates cold spots for precise and even cooking. Independent heating elements and ideal rack positions take the guesswork out of cooking.

#### **SUPER VERSATILE**

10 cooking functions to guide you to perfection: Toast 6 slices, Crumpet, Grill, Bake, Roast, Warm, Pizza, Airfry, Reheat and Slow Cook for long cook times, at low temperatures.

#### **DUAL SPEED CONVECTION**

Convection can reduce cooking time by up to 30%. It speeds the cooking process by raising hotter air and sinking colder, less dense air for quicker heating. Super Convection delivers extreme air flow, ideal for Air Fry.

#### **LCD DISPLAY**

LCD display to easily access the built in smart functionality, choose from 10 smart cooking functions. The LCD also indicates when pre-heat has completed and automatically begins to count down on the cooking time for perfect results.

#### **INTERIOR OVEN LIGHT**

Integrated oven light automatically turns on at the end of the cooking cycle to help you see inside. It can be turned on at any time to see your progress. Replaceable componentry like your regular large oven.

### Product Technical Specs:

- 10 Cooking functions including: Air Fry & Slow Cook
- PID temperature precision
- Two speed super convection fan
- Element iQ® System
- 10 Cooking functions including: Air Fry & Slow Cook
- 5 Quartz Elements
- Interior light
- Toasts 6 slices
- 22L. capacity
- Air Fry basket, roasting pan
- 12" /30cm Pizza pan

- **Wattage:** 2400W
- **Unit Weight (kg):** 13 kgs
- **Master Carton Weight (kg):** 16 kgs
- **Units per Carton:** 1
- **Units per 20 Feet:** 255
- **Units per 40 Feet:** 530
- **Units per 40 Feet HQ:** 625
- **Shipper Dimensions (HxWxL mm):** 624 x 449 x 391 mm
- **Product Dimensions (HxWxL mm):** 480 x 403 x 278 mm
- **Display Box Dimensions (HxWxL mm):** 606 x 437 x 367 mm

### Product Warranty:

2 Years Replacement
