At Breville we are very safety conscious. We design and manufacture consumer products with the safety of you, our valued customer, foremost in mind. In addition we ask that you exercise a degree of care when using any electrical appliance and adhere to the following precautions.

IMPORTANT SAFEGUARDS

READ ALL INSTRUCTIONS BEFORE USE AND SAVE FOR FUTURE REFERENCE

- Carefully read all instructions before operating and save for future reference.
- Before use fully unwind the power cord.
- Always use the Citrus Press on a dry, level surface.
- Remove any promotional stickers before using the Citrus Press.
- Always make sure the Citrus Press is properly assembled before connecting the plug and switching on at the power outlet and switching ON the ON/OFF button on the appliance. The appliance will not operate unless properly assembled.
- Always switch the appliance OFF at the ON/OFF button, then switch off at the power outlet and remove the plug if the appliance is left unattended, if not in use, if moved or dismantled for cleaning and when storing.
- Do not let the cord hang over the edge of a table or counter, touch hot surfaces, or become knotted.
- Do not place this appliance on or near a hot gas or electric burner, or where it could touch a heated oven.
- Do not leave the appliance unattended when in use.
- Use caution when operating the appliance – do not place hands or fingers near moving or rotating parts.
- Avoid placing hands or fingers near Juicing Press Arm mechanism at rear of Motor Base when moving Juicing Press Arm into the upright position.
- This appliance is not intended for use by young children or infirm persons without supervision.
- Young children should be supervised to ensure that they do not play with the appliance.
- Do not immerse power cord or motor base in water or any other liquid.
- The installation of a residual current device (safety switch) is recommended to provide additional safety protection when using electrical appliances. It is advisable that a safety switch with a rated residual operating current not exceeding 30mA be installed in the electrical circuit supplying the appliance. See your electrician for professional advice.
- Any maintenance other than cleaning should be performed at an authorised Breville Service Centre.
- Strictly follow cleaning and care instructions.
- Regularly inspect the supply cord, plug and actual appliance for any damage. If found damaged in anyway, immediately cease use of the appliance and return the entire appliance to the nearest authorised Breville service centre for examination, replacement or repair.

IMPORTANT SAFEGUARDS FOR ALL ELECTRICAL APPLIANCES

- Fully unwind the power cord before use.
- Do not let the power cord hang over the edge of a bench or table, touch hot surfaces or become knotted.
- To protect against electric shock do not immerse the power cord, power plug or appliance in water or any other liquid.
- The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- It is recommended to regularly inspect the appliance. To avoid a hazard do not use the appliance if power cord, power plug or appliance becomes damaged in any way. Return the entire appliance to the nearest authorised Breville Service Centre for examination and/or repair.
- Any maintenance other than cleaning should be performed at an authorised Breville Service Centre.
- This appliance is for household use only. Do not use this appliance for anything other than its intended use. Do not use in moving vehicles or boats. Do not use outdoors. Misuse may cause injury.

SAVE THESE INSTRUCTIONS

KNOW

your Breville Product

KNOW YOUR BREVILLE PRODUCT

- A. Juice Press Arm**
Patented juicing handle features a unique triple hinged arm to ensure downward pressure throughout the juicing process to maximize juice yield.
- B. Stainless Steel Filter**
(dishwasher safe)
- C. Powerful Motor**
Automatically starts when pressure is applied to the Juicing Cone.
- D. ON/OFF Button**
- E. Cord Storage**
Wraps around and clips into position under Motor Base (not shown in picture).
- F. Soft Grip Handle**
Makes juicing easy.
- G. Fruit Dome**
Is easily removed for cleaning.
(dishwasher safe)
- H. Die Cast Stainless Steel Juicing Cone**
Uniquely finned and undulating cone extracts the maximum juice from all sizes of citrus fruit.
(dishwasher safe)
- I. Juice Collector**
Collects the juice to flow out the Juice Spout.
(dishwasher safe)
- J. Juice Spout**
Opens all the way for cleaning with anti-drip stop function.
- K. Double Stage Switching System**
Juicer will NOT operate unless it is correctly assembled for safety and performance.

ASSEMBLING

your Breville Product

ASSEMBLING YOUR BREVILLE PRODUCT

ASSEMBLING THE CITRUS PRESS

1. Pull the juice press arm up and backwards, away from the motor base, until fully extended.

2. Place the juice collector onto the drive shaft on top of the motor base, ensuring the juice spout fits into the semi-circular groove at the front of the motor base.

3. Insert the stainless steel filter into the juice collector, aligning the indent with arrow in the bottom of the filter over the corresponding tab with arrow in the juice collector.

4. Place the juicing cone onto the drive shaft and press down lightly to lock the cone into position.

ASSEMBLING YOUR BREVILLE PRODUCT

5. Insert the fruit dome onto the underside of the juice press arm by aligning the tab on top of the fruit dome with the hole in the juice press arm. Hold onto the juice press arm and press the fruit dome up and backwards until the dome locks into position.

NOTE

The fruit dome is keyed, and can only be inserted in one way (this will ensure that it does not rotate through operation).

6. Ensure the anti-drip juice spout is pushed down into the pouring position.

7. Place a suitable sized glass or jug underneath the juice spout.

OPERATING

your Breville Product

OPERATING YOUR BREVILLE PRODUCT

1. Ensure the citrus press is correctly assembled and a glass or jug is placed under the juice spout before juicing commences.

2. Cut the citrus fruit in half by cutting across the fruit segments, rather than across the tip ends, to ensure more efficient juicing.

NOTE

Some fruits, such as lemons and tangelos, have knobby tip ends which require trimming for better contact with the fruit dome.

3. Plug the power cord into a 230/240V power outlet, then press ON/OFF button to ON.

4. Place a citrus fruit half, cut side down, onto the juice cone and push down lightly onto the spikes.

5. Grasp the soft grip handle and slowly lower the juice press arm and press down firmly until the fruit dome is in contact with the fruit skin. The motor will automatically start and the juicing cone will begin to rotate. The juice will be extracted from the fruit and flow through the juice spout into the glass. The pulp and seeds will collect in the stainless steel filter.

OPERATING YOUR BREVILLE PRODUCT

6. The Citrus Press juices very quickly so each fruit half will be juiced in a few seconds. To automatically stop the motor, lift the juice press arm up and backwards to its extended position.

7. Remove the used fruit from the juicing cone. Empty excess pulp and seeds from stainless steel filter as required. Repeat Steps 3-7 to continue juicing.

NOTE

The stainless steel filter should be emptied when full with pulp and seeds. The filter can be emptied during juicing by turning the citrus press OFF at the ON/OFF button and carefully removing the juicing cone and filter. Clean and replace stainless steel filter and juicing cone before continuing to juice. Do not allow the stainless steel filter to overfill as this may prevent correct operation or damage the unit.

DISASSEMBLING

your Breville Product

DISASSEMBLING YOUR BREVILLE PRODUCT

DISASSEMBLING THE CITRUS PRESS

1. Turn the Citrus Press OFF at the ON/OFF button, then unplug from the power outlet.

2. Pull the juice press arm up and backwards, away from the motor base, until fully extended. Close the anti drip spout by flipping to up.

3. With the arm in the down position, remove the fruit dome by pressing the button marked EJECT. Let the fruit dome drop onto the juicing cone.

4. Lift the juice collector from the motor body with the stainless steel filter, juicing cone and fruit dome still in place. Remove the cone and filter from the juice collector over a sink for easier cleaning. Follow recommended care and cleaning guidelines.

STORAGE

Store the cleaned and reassembled Citrus Press in an upright position in a cool, dry place. Do not place any items on top of the Citrus Press while stored.

CARE & CLEANING

CARE & CLEANING

- Always ensure that the Citrus Press is turned OFF at the ON/OFF button and the plug is removed from the power outlet before cleaning, disassembling, assembling and storing the appliance.
- Follow these instructions to clean all surfaces or parts that come into contact with food during juicing.
- For easy cleaning immediately after each use rinse removable parts under warm water to remove wet pulp. Allow parts to air dry before reassembling.
- For thorough cleaning after disassembling the appliance, all removable parts should be washed in hot soapy water or on the top shelf of the dishwasher. The motor base and juice press arm should be wiped with a soft, damp cloth. All parts should be dried thoroughly before reassembling.
- Store the cleaned and reassembled Citrus Press in an upright position in a cool, dry place. Do not place any items on top of the Citrus Press while stored.

NOTE

Rinse or wash all removable parts immediately after use. Dried citrus pulp is difficult to remove and may stain. If any staining does occur, wipe the discolored part(s) with undiluted dishwashing liquid, rinse and dry thoroughly.

NOTE

Do not soak the stainless steel filter or other removable parts in bleach. Never immerse the motor base in water or any other liquid. Do not use harsh abrasives

HINTS & TIPS

THE INSIDE INFORMATION ON JUICE

Although juice drinks are usually developed with flavor, texture and aroma at the forefront, the health benefits certainly add to the pleasurable taste experience. 70% of the nutrient content of fruit and vegetables is found in the juice. Liquids are an important part of a well balanced diet and fresh juice is an easy source of vitamins and minerals. Juices are rapidly absorbed into the blood stream therefore being the quickest way in which the body can digest nutrients. Citrus juice is renowned for its high content of Vitamin C and cold and flu fighting capabilities. Freshly extracted juices should be consumed just after they have been made to avoid vitamin content loss.

PURCHASING AND STORAGE OF FRUIT

- Always use fresh fruit for juicing.
- Select fruit with firm, smooth skins and free of blemishes.
- Valencia oranges are ideal for juicing.
- Select medium sized grapefruits, lemons and limes for easier juicing.
- Citrus fruits can be stored at room temperature in a dry area.
- More juice is obtained from fruit stored at room temperature.

TROUBLESHOOTING

TROUBLESHOOTING

POSSIBLE PROBLEM	EASY SOLUTION
Will not work	<ul style="list-style-type: none">• Switch not in the ON position• Juice Press Arm not lowered• Juicing Cone or Fruit Dome not assembled properly• Stainless Steel Filter not assembled properly
