

Dr. Brown's® Options+™ Narrow Bottle Assembly:

1. Connect insert to reservoir. Ensure that the two pieces of the **Internal Vent System** are securely attached.
2. Place **Internal Vent System** in the bottle.
3. Pull the nipple through the bottom of the collar until it snaps in place.
4. Screw collar onto the top of the bottle until snug.
5. Assembly is complete and the bottle is ready for feeding.
6. Place the cap on the bottle when not in use.
7. Use travel disk **when in transit**.

Cleaning and Sterilizing Dr. Brown's[®] Options+[™] Narrow Bottles:

Prior to initial use and after each use, Dr. Brown's[®] bottles must be thoroughly cleaned. Before first use, place the nipple in boiling water for 5 minutes.

1. Always use clean hands and surfaces.
2. Fully disassemble all parts.
3. Use a Dr. Brown's[®] bottle brush to remove milk residue and clean the vessel and collar.
4. Use the wire cleaning brush included with the bottle to thoroughly clean the **Internal Vent System**.
5. Use the chevron tip at the bottom of the Dr. Brown's[®] Bottle Brush to eliminate residue inside the tip of the nipple and assure the nipple hole is clean and clear.
6. Rinse all parts of the bottle and place on a drying rack to air dry.
7. Dr. Brown's[®] bottles, parts, and nipples may be washed in a dishwasher (top-rack only), and sterilized in a microwave sterilizer, microwave sterilizer bags, electric sterilizer, or boiling water.
