Set up and use your Beats Studio Buds

You can listen to music, make phone calls, use Siri, and more with your Beats Studio Buds.

Pair your Beats Studio Buds

Learn how to pair your Beats Studio Buds with your device.

Pair with your iPhone, iPad, or iPod touch

1. Turn on Bluetooth on your iPhone, iPad, or iPod touch.
2. With the case lid open, hold your Beats Studio Buds next to your unlocked iPhone, iPad, or iPod touch.
3. Follow the onscreen instructions. If you don't see any instructions, follow the steps to pair your Beats Studio Buds with another device.

Pair with an Android device

Pair your Beats Studio Buds using the Beats app for Android.

You can also use Fast Pair to pair your Beats Studio Buds with an Android device:

1. Make sure that your phone is using Android 6.0 or higher, and that it has Bluetooth and Location turned on.
2. With the case lid open, hold your Beats Studio Buds near your phone or tablet.
3. When you get a notification, tap "Tap to pair." You'll get a "Device connected" or "Pairing complete" notification.
4. If you need to set up your Beats Studio Buds, tap "Set up now." If you don't get a notification, open the Bluetooth settings on your phone or tablet, and tap the device that you want to pair.

Fast Pair requires your location to be enabled. Full access to features requires an Android 6.0 or newer device with Google Play Services enabled and Google Account.

Pair with your Mac or with another device that uses Bluetooth

1. Turn on Bluetooth on your Mac or other device.
2. With the case lid open, hold your Beats Studio Buds next to your Mac or other device.
3. Press and hold the system button on the charging case until the LED blinks.
4. Open the Bluetooth menu on your Mac or other device. For example, on your Mac, choose Apple menu > System Preferences, then click Bluetooth.
5. In the list of discovered Bluetooth devices, tap or click your Beats Studio Buds.

Use your Beats Studio Buds

When you take your Beats Studio Buds out of the charging case, they're on and ready to use.

Play music

To control your music, you can use the Beats logo button ᑲ on either earbud:

- To pause or play audio, press the Beats logo button once.
- To skip to the next track, press the Beats logo button twice.
- To listen to the previous track, press the Beats logo button three times.

Change the volume

To change the volume, say "Hey Siri," then say something like "Turn down the volume." Or drag the volume slider in the app you're listening to, on the Lock screen, or in Control Center. You can also open Now Playing on your Apple Watch and turn the Digital Crown to adjust the volume.

Siri might not be available in all languages or in all areas, and features might vary by area.

Answer phone calls

To control phone calls, use the Beats logo button ᑲ on either earbud:

- Press once to answer or end a call.
- Press once to answer a second incoming call and put the first call on hold. When two calls are active, this switches between calls.
- Press and hold to reject an incoming call.
- Press twice to stop listening through your earphones and send the call to your phone.

Use Active Noise Cancellation and Transparency mode

Beats Studio Buds let you control how much you hear your surroundings. Press and hold the Beats logo button ᑲ on either earbud to switch between Active Noise Cancellation, Transparency mode, and Off (to enable maximum battery life).

You can select which modes the press-and-hold action switches between. While wearing your Beats Studio Buds, go to Settings > Bluetooth > Beats Studio Buds > Press and Hold Beats Studio Buds.

Press and hold feature customization requires an iPhone, iPad, or iPod touch with iOS or iPadOS 14.6 or later, or an Android device with the latest version of the Beats app installed.

Ask Siri

If you set up "Hey Siri" on your iPhone already, then "Hey Siri" is ready to use with your Beats Studio Buds. If you haven't set up "Hey Siri," you'll be guided through the setup.

To activate Siri, you can say "Hey Siri," or press and hold the Beats logo button on either earbud. When you hear a chime, say what you need. Learn what to do if Siri isn't working.

Siri may not be available in all languages or in all areas, and features may vary by area.

Learn more

- Learn how to charge your Beats Studio Buds.
- To improve the comfort, stability, and sound quality of your Beats Studio Buds, you can change the eartips.
